*Most Americans have debt at one time or another. This survey is about your views and experiences with debt and the process of paying debts. For the purposes of this survey:*

**Debts** include any money you owe, for example, bank loans, student loans, financing from a store or dealer, and past-due bills (such as credit card, medical, or utility bills). For this survey, consider only personal debts, and do not include business loans or debts owed to a family member.

A **debt collector** is any person or company trying to collect on a debt—even a debt you do not believe you owe. The debt collector could be, for example, the collections department of the original creditor (the person or company you got the loan from or originally owed the debt to), an attorney, a collection firm, or others trying to get you to pay a debt.
