main street's cybersecurity expert

IN PARTNERSHIP WITH GoSecure

GoSecure TITAN

Inbox Detection & Response (IDR)

Powered by GoSecure Titan® | Delivered by SecureGovernComply

Fake emails are one of the top ways criminals break into a business. Experts say almost **1 in 3 people** open phishing emails. More than **1 in 10** of them will click a bad link or open a bad file.

That is why SGC teamed up with **GoSecure** to bring you **Inbox Detection & Response (IDR)**. Your team clicks one button to send a strange email to the experts. Within minutes, they tell you if it is safe or remove it.

Who is SGC? SecureGovernComply (SGC) is Main Street's cybersecurity expert. We help small and mid-sized businesses stay safe and meet the rules they must follow. **We are here for you.**

Your team does not have to guess. One click gets a real answer, fast.

WHAT IDR WATCHES FOR

- Phishing
- Business email scams
- Harmful files & software
- Tricks that fool people
- Fake brand emails

One-Click Button

A GoSecure button sits right in Outlook. It works on desktop, web, and mobile.

Smart Tools + Real People

Each email is checked by smart computer tools and by trained security experts.

Answers in Minutes

Your worker gets a clear answer fast. The email comes back safe, or it is removed.

Bad Emails Removed Everywhere

If an email is harmful, it is wiped from every inbox in your company.

Full View for Your IT Team

Your IT team gets alerts, reports, and charts. They never have to touch the email.

Expert Help, Day and Night

The GoSecure security team works around the clock as part of your team.

GoSecure Titan® is a registered trademark of GoSecure.

GoSecure

How Does IDR Work?

Six simple steps. Real answers in minutes.

1. **Click the button.** A worker sees a strange email in Outlook and clicks the GoSecure IDR button.
2. **The email is locked away.** It moves to a safe place and goes to the GoSecure security team.
3. **Smart tools scan it.** Computer tools check the email for danger.
4. **Experts take a close look.** Real security pros study the email from every angle.
5. **You get an answer.** In minutes, the email comes back safe or is removed for good.
6. **Your IT team gets a report.** If the email holds harmful software, your IT team gets the full details.

Why Get IDR from SecureGovernComply?

Fast answers help most when you know what to do next. With SGC, you get:

Local Experts
