Don’t Face Risk Alone

You’re not a target—until you are. In today’s highly regulated environment, even well-run agencies can face professional liability and regulatory claims.

Protect your business from evolving industry risks with a program built specifically for the ARM industry.

The Only E&O Policy Developed for the ARM Industry

Errors & Omissions (E&O) insurance is supposed to protect your agency’s future, but generalist policies are often built for broad risks rather than the specific legal and regulatory pressures of the ARM industry.

With Collectors Insurance Agency, you benefit from a Decade of Stability through our partnership with QBE, along with deep industry experience and specialized insight developed from years of supporting agencies like yours.

Most importantly, you gain proactive guidance to help strengthen your risk profile and reduce exposure over time.
